Pump Track & Trail Builders

Workplace

- We need people in many different countries. Get in touch!

We offer you

- A year-round position in an up-and-coming and innovative company with great growth worldwide
- Sporty, social, tolerant, environmentally conscious and international environment
- Internal training in pump track and trail construction
- Possibility for professional development (construction manager, project manager, ...)
- Industry standard salary

Your tasks

- Collaboration on pump track and trail construction projects (maintenance and new construction)
- Manual labor and operation of construction equipment (according to suitability)

Qualities that we appreciate in you

- Experience with handling construction equipment (crawler excavator, pneulader, Ramax, vibra plates, etc.)
- Affinity for mountain biking and action sports
- Experience in trail and snow park construction

- Basic training in gardening and construction
- Always expect the unexpected
- Independent, reliable and proactive
- Tolerant and sustainable thinking
- Motivated and team player
- Willingness to travel
- Open to new ideas
- Languages: English – German and/or French is an advantage

Start

- Immediately or according to agreement
